

MANAGEMENT SYSTEM POLICY

Our mission is to provide the best quality products and solutions in every sphere of our business while ensuring the satisfaction and success of our clients, partners, and employees on a daily basis.

Our vision is to become the leading company in the IT market - being recognizable as a strong competitor, keeping the advantage by the constant investment in quality, information security, knowledge and competence improvement, thus conquering new areas of the industry.

This will be achieved through:

- Consideration of context of the organization and aligning the Quality and Information Security Management System with our strategic directions
- Satisfying interested parties and applicable statutory, regulatory and all applicable requirements
- Management of organization, along with employee-established quality and information security objectives and defined responsibilities for their fulfilment
- Establishing, applying, maintaining and continual improvement of effectiveness of Quality and Information Security Management System
- Tracking and applying new technologies and educating employees
- Careful selection of suppliers and partners
- Commitment to increase quality and information security of our products and services in order to exceed customers' expectations
- Making continuous improvement a part of every day and every job
- Ensuring that our Policy and Management Manual reflect what we actually do
- Continuously upgrading the Quality and Information Security Management System in all stages of our core processes

CEO is responsible for communicating the Policy to all persons working for or on behalf of the organization and making it available to the public.
